

The Importance of Space Education and the Interdisciplinarity in Space

BME SUBORBITALS

The beginnings

2021-2022

- Foundation
- First projects
- First achievements

Current situation

- A well established and internationally recognised team
- First supersonic flying device from Hungary
- Successful operations at an international competition

Space Sector

Space Industry

Space
Education

But who will supply the necessary amount of workforce for these jobs?

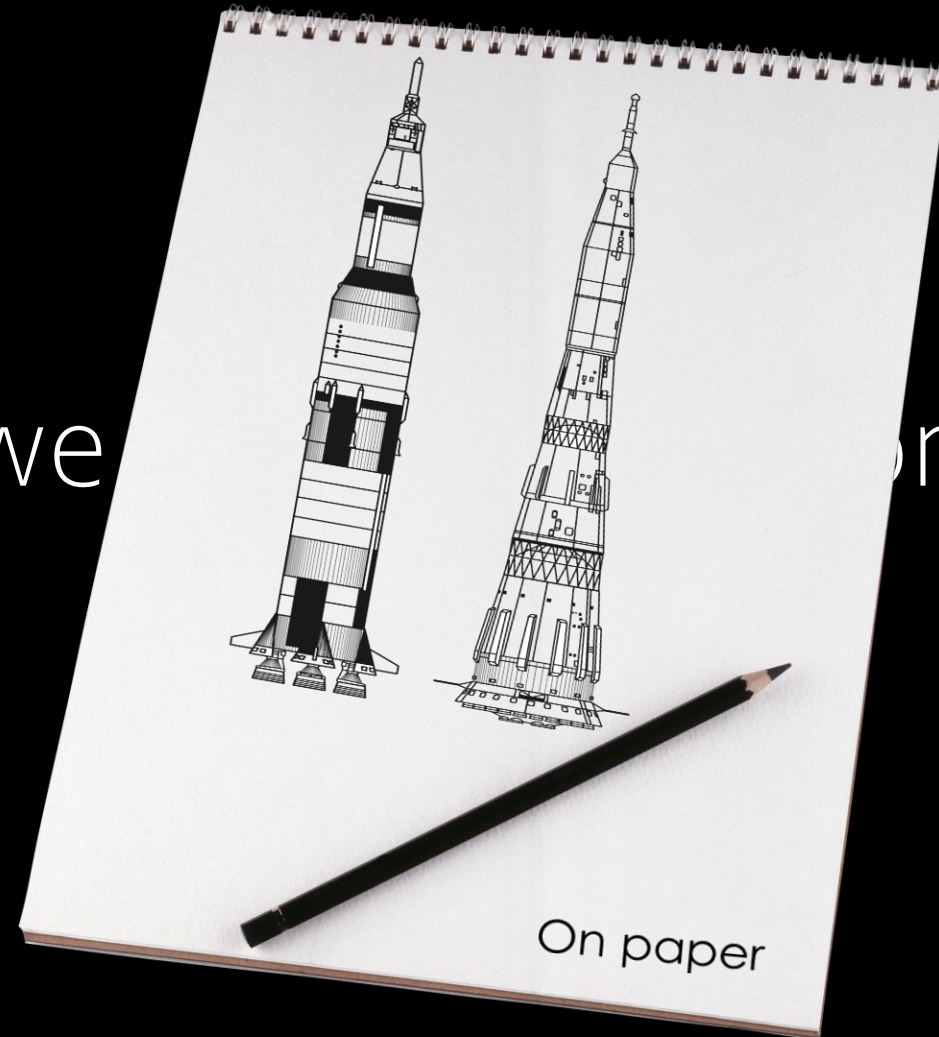

- Electronics
- Structure
- Recovery
- Simulations
- Propulsion

Importance of management structure

Great, now we

On paper

complex rocket

NEMZETI CANSAT VERSENY 2023

The background features a dark space with a faint satellite orbit diagram consisting of a central point and two elliptical paths. Overlaid on this are several vibrant, flowing ribbons of light in shades of red, orange, yellow, green, and cyan, creating a sense of motion and energy.
